

SALA DINER

The Sala is a handmade convertible diner manufactured to the highest standards in solid wood with decorative turned legs to fit in with many room styles. The table has a precision ground Italian slate bed to guarantee a flat playing surface, it is fitted with a solid brass dual-height rise and fall mechanism and levelling system to raise and lower the table easily between playing and dining height. Genuine English moulded leather covers the pocket plates and the cotton bag net pockets can be hidden away when in the dining position.

The table is polished to a high quality durable finish in a choice of colours and also has a range of cloth colours to choose from. Available with solid wood dining tops or decorative veneered dining tops.
